		Minhloan Tran Primary Examiner Art Unit 2826			

Continuation of 2. NOTE: New claims 11,12,14, and 15 raise the issue of new matter. These claims claim combinations that include all the elements of claims 6 and 8 in combination with a deep via of second conductivity type. Such combinations were not disclosed in the originally filed application. New claim 13 also raises the issue of new matter because it claims a combination of all the elements of claim 6 in combination with an electrically insulating substrate. There may be some teaching in the SOI art that shows that proposed claim 13 would have been an obvious variation of claim 6, but to find that teaching and apply it would require further search and consideration.
